Board Support

Joint Boards

Joint Board comments and recommendation;

At our January 8, 2018 AC meeting it was unanimously passed to write our recommendation for a Joint Board meeting. We understand that some ACs might need Joint Board action to adjust their membership, that reflects the current local participation on the ACs, to facilitate achieving a quorum. This could be done in a prudent cost saving manner with a teleconference of the Joint Boards. We could not think of any other pertinent actions the Joint Boards would need to take at this time.

Thank you,

David Martin, AC Chair
